PROVEN, PLAY-BASED STRATEGIES THAT CREATE A PLACE FOR EVERY KID

This free members only training, offered through Playworks Pro, focuses on the power of safe, fun, and healthy play every day. How kids feel and engage on and off the playground has a direct impact on their academic success, social relationships, and physical health. Play offers children a chance to be active and learn important life and social skills. However, play time is often a period of chaos and conflict. Many kids end up on the sidelines or engaging in playground disputes that spill into the classroom and detract from learning. This hands on workshop will provide tools to address social and emotional learning as well as practical skills that tap into the transformative power of play to change lives.
